BIOGRAPHY
Babbage

The Artist

“Hotel Pools meets Tycho, with a twist of Daft Punk and Tame Impala.”

Babbage is a West Kelowna–based producer and artist exploring the dreamy landscapes of chillsynth, post-rock, and synthwave. Since 2023, Babbage has released three albums and over 50 singles, carving out a signature sound that's spacey, futuristic, and unmistakably cinematic.

With four Juno Award nominations as a producer and ~6M streams across platforms, Babbage brings serious studio cred and a flair for the cosmic. The latest album Spacetime (Nov 2025) has already crossed 2M streams, and Babbage's music has soundtracked 15,000+ Reels worldwide.

When not building immersive soundscapes, Babbage geeks out over computer science and all things nerdy — infusing futurism and cosmic wonder into every track.
